MARKEL REPORTS FIRST QUARTER 2020 RESULTS

Richmond, VA, April 28, 2020 --- Markel Corporation (NYSE:MKL) reported operating revenues for the first quarter of 2020 that included \$1.3 billion of earned premiums in our underwriting operations, compared to \$1.2 billion in 2019, \$511.2 million of operating revenues in our Markel Ventures operations, compared to \$455.0 million in 2019 and net investment losses of \$1.7 billion attributable to the change in fair value of our equity portfolio, compared to net investment gains of \$612.2 million for the first quarter of 2019. The significant volatility in the equity markets arising from economic uncertainty associated with the COVID-19 pandemic contributed to a comprehensive loss to shareholders of \$1.4 billion for the first quarter of 2020 compared to comprehensive income of \$732.2 million for the first quarter of 2019 and diluted net loss per share of \$100.60 for the quarter ended March, 31, 2020 compared to diluted net income per share of \$42.76 for the first quarter of 2019. The combined ratio was 118% for the first quarter of 2020, or 94% after excluding \$325 million of underwriting loss attributed to the COVID-19 pandemic, which added 24 points to the combined ratio. This compares to a combined ratio of 95% for the first quarter of 2019. Book value per common share outstanding was \$705.68 at March 31, 2020, down 12% from \$802.59 at December 31, 2019.

We recognize this is a stressful time for our employees, professionally and personally, and thank them and their loved ones for their support and commitment to keep our communities safe and Markel moving forward," commented Thomas S. Gayner and Richard R. Whitt, Co-Chief Executive Officers. "For 90 years Markel's strength and deep expertise have enabled us to support our key stakeholders through many situations and events, and today this is no different.
